

REMARKS

Subsequent to a 2nd paper alleging deficiencies in the Sequence Listing, appearing on PAIR on August 26, 2008, the Sequence Listing is amended.

SEQ ID NO. 29 is amended to recite amino acid numbers. Support is found in the sequence itself.

Notably, a Checker report of Appendix A showing no errors is submitted. Despite the alleged deficiencies, it is noted that the previous version of the Sequence Listing also resulted in no errors using Checker (8/25/08).

No new matter is added. The amendment to the paper copy of the "Sequence Listing" is submitted herein under § 1.825(a) by the submission of substitute sheets as an Appendix A, and replaces all prior versions. The substitute sheets include no new matter. As required under § 1.825(c), a substitute copy of the computer readable form (CRF) is also submitted whereby under Patent EBC, FAQ p220efs191, a "Sequence Listing" filed in text form through electronic filing will be accepted as the CRF of the "Sequence Listing". The CRF is the same as the substitute copy of the "Sequence Listing."

Respectfully submitted,
